Jeanie Griffin will facilitate a teaching

Creating a Human Web of Light

We are light and we came here to shine. Most of us have forgotten our true nature as well as why we came here. It is our birthright to shine as fully in the world as we can. Many of us have been taught at an early age not to shine too brightly. If we shine too brightly no one will love us. Perhaps we were told there can only be a few "stars" and you are not one. Perhaps you carry a sadness so deep it is always just under the surface. Does this sound familiar? If so, please plan to attend this gathering. We will

- ✚ drum and rattle to show gratitude to the spirits,
- ✚ learn the process of transfiguration,
- ✚ join a planetary web of light,
- ✚ go within as we remember our true nature,
- ✚ reach out and touch all the dark spots in the world.
